

**THE NAME YOU CAN TRUST**

# ***MORATE ENGINEERS***

## ***Floor Protective Coatings***

- › Epoxy/Epu Flooring.
- › Water Proofing .
- › Pu Flooring.
- › ESD Flooring.
- › Anti Skid Flooring.
- › Chemical Resistant Flooring.
- › Car Parking Flooring.
- › Pu Wall Coating.
- › Concrete Repairs & Maintenance.
- › Eco Tile Flooring.

**TIME COMMITMENT | COST EFFECTIVENESS | HIGHLY QUALITY PRODUCT**

## ABOUT US

**Morate :** Morate Engineers Floor Coating Specialist Company providing best industrial solutions with the Help of Experience Engineers & Professional from basement to top terrace (Pre & Past construction) with specializations in industrial floor treatment & rehabilitation of structures suffering from leakage & cracks

### Mission:

Morate provide quality products & support services by our highly trained & well motivated work force. Products which are used in Flooring System for Long Life and Durable at Reasonable Cost .

### Vision :-

To remain a significant player in the chemical industries as a dependable supplier marketing products with backup of excellent support & services

### Services :

Morate provide all technical services related to Industrial Building its costumer from identifying every parameter of problems to under taking trials mix design correct method for application. the problems of each customer treated individually by our highly trained engineers who can make professional right decision in the field

# 1 EPOXY FLOORING

- High built solvent less self leveling epoxy flooring
- Excellent adhesion to floor, tough heard abrasion resistance
- Joint free seamless finish
- Dust free and hygienic floor surface
- Reduce maintenance cost
- Use in Food & Pharma Industries

# 2 PU FLOORING

- Excellent in elasticity properties
- Heavy load wearing capacity
- Excellent bond with concrete.
- High corrosive resistance properties
- Ability to Handle Extreme hot & Cold Temperature -40° to +130°

# 3 EPU FLOORING

- Fusion of Epoxy and Polyurethane Polymer
- Excellent Appearance of floor
- Ideal for Fight against corrosion and erosion
- Moderate Flexibility
- Higher Impact resistance
- Use in Automobile Industries

# 4 Electrostatic Discharge Floor ESD

- It is solvent-less, self-leveling epoxy based floor coating with static control properties.
- It is suitable to be used in server room, panel room, Production area-electronics/chemical, warehouse-electronics /chemicals and operation theatre.

## 5

### EPOXY ROLLAR COATING

- Excellent appearance of floor
- Ideal for Fight against corrosion and erosion
- Moderate flexibility
- Higher Impact resistance
- Use in Slow & Light movement

## 6

### CHEMICAL RESISTANCE FLOORING

- Protect concrete floor from chemically spillage
- widely used in Pharma and petrochemical company
- PU based flooring
- Easy to apply

## 7

### CAR PARKING FLOORING

- It is an anti skid coating system comprising of primer coat, Intermediate layer coat, Quarty sealer coat and top coat.
- It has an excellent UV resistance and chemical resistance properties Easy to clean and maintain.
- It is recommended for car parking areas and vehicle service centers.

## 8

### TILE & QUOTA JOINT GROUTING

- Water & Chemicals Resistance
- Protects tile joints from cracking & Powdering
- It's Stain & germ resistant Features make it
- it is used in packing Areas

# 9

## PU. WALL COATING

- Help to stop bacterial contamination on walls water base epoxy acrylic paints.
- economical solution for walls
- widely use in pharma company's Hospitals and kitchens etc.

# 10

## ECO TILE FLOORING

- Ecotile Flooring - Ultra Heavy Duty Industrial Flooring - Low maintenance, cost effective industrial flooring with incredibly short lead times. Ideal for factories, warehouses, garages, aircraft hangars and more.

# 11

## ROOF WATER PROOFING

- Sealing existing roof leaks: preventing future leaks
- Sustaining the current roof and extending it's life cycle
- Reducing future maintenance needs and related costs
- Improving energy maintenance needs and related costs
- Added protection against damage from weather and UV rays

# 12

## CONCRETE REPAIRS & MAINTENANCE

- Epoxy based specially formulated repair material for cracks , joints potholes and damaged concrete surfaces.
  1. Excellent bonding to concrete
  2. Fast Setting
  3. Very high Mechanical & Compression Strength

## OUR CLIENTS LIST

Saraswati Group of Company

Ultra Drugs

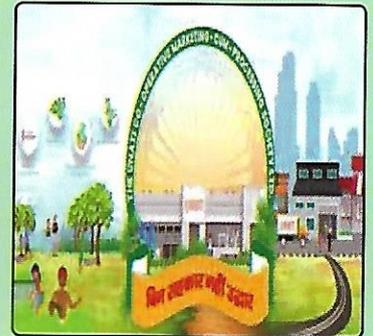

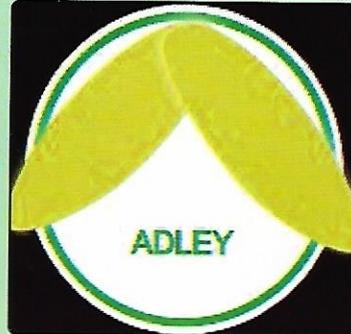

N.G Electro  
Products Pvt Ltd

BETA DRUGS LTD.

Ameya  
INC
